Sign of Perfection

Paco Sanchis, CEO COMPAC

It has been forty years since we defined COMPAC's mission: to imagine, design and create surfaces that inspire the life of people and to mark a trend in the world of design. Today we keep giving the best of ourselves to become the point of reference for design lovers that know how to appreciate beauty and look for something unique.

Our Unique collection is inspired in the properties of natural rock to then go beyond all your expectations. It is the fruit of the constant effort to always offer an innovative product, creating decorative surfaces with unsurpassed technical characteristics.

Forty years is a long time but we keep looking to the future, establishing and reaching impossible

goals, while not only transforming the materials we work with but also the lives of the people that interact with them.

We know there is always room for improvement and that is why we never stop. The only way to make a better world is to dream with a perfect one.

Perfecting Nature

Nothing is perfect, it is said.
Excellence is utopia... But all we
have to do is look around us and
we can see that perfection is
present all across the planet.

Only when you truly understand nature's perfection, wisdom and greatness can you start conceiving something more than that.

Our Unique collection imbibes the nectar, the beauty, of nature. It is born from total respect and admiration for the forms, materials and textures of nature.

Our creations are inspired by lakes, forests, rocks, mountain scenes... to build something totally new and unique.

Only when you truly understand nature's perfection, wisdom and greatness can you start conceiving something more than that.

This is how we place all our knowledge acquired over the years at the service of the purest raw materials, ensuring that the end product will be even more perfect than nature.

In our manufacturing processes we give our stone a series of new properties, which are better adapted to daily human needs: impermeability, hardness, resistance... preserving all the original values while enhancing them thanks to our creativity.

Unique Calacatta™

Perfection of the soul

The beauty of the purest white contrasts with dark, sinuous veins, giving rise to an elegance and luminosity like never before. This is how we transform empty, silent spaces into unforgettable, living places, imbued with personality and style.

Technology confers purity, naturalness, power and brilliance to each piece, creating works of art that transcend time. All are identical, but all are different. The quality, the finish, the essence... never changes. But the design of the veining is always unique.

Unique Marquina™

Perfection of elegance

From the darkness of rock come the sinuous white sparkling streaks, giving this material an elegant and sophisticated appearance, full of strength and authenticity.

Unique Marquina™ means originality, purity, elegance and distinction. Regardless of the surroundings, quality and good taste are always apparent, from the simplest styles all the way through to the most sophisticated.

Unique Venatino™

Perfection that speaks

We all think and feel differently, and that is precisely what makes us unique and special.

Unique Venatino™ is the perfect balance between wildness and elegance, control and energy. The softness of the whites and the subtlety of the greys, throughout the veining, give each piece an insuperable elegance and simplicity. It's a material that makes a statement about you: who you are, what you're like. A design that turns any space without life into a part of you, your character and your personality.

Unique Arabescato™

Perfection in shapes

Interlaced through the pure white rock are streaks of pale grey forming capricious arabesques, decorating the stone with organic, geometric forms to create unique patterns.

Freshness, sobriety and purity in a finish that brings brightness and luminosity to every space in your home.

Unique Argento™

Perfection of essential

Grey inspired by the appeal of the weather-worn rock, by dry tree bark, by the ashes from which life is reborn. The essence of the natural elevated to the maximum in elegance, in a sober silver tone, dense and contained, with a subtle vein that brings timid flashes of light.

Unique Argento™ transforms every space it touches into something extraordinary, providing a solid foundation for the rest of the materials and textures with which it coexists.

The Power of Talent

MINDS OVER MATTER

At COMPAC, we firmly believe that when mind and talent dominate matter, not only do we create better products, but we inspire more valuable and rewarding experiences in our customers' homes and living and working spaces.

Our mission: to create pieces with a soul that evokes its origins and transmits new sensations.

We believe that people's talent and creativity comes before technique.

In a world where technology dominates our lives and where almost everything can be copied, there is one thing that is unpredictable and inimitable, giving rise to unique events: the human mind.

At COMPAC, we decided to challenge our own limits in the creation of surfaces that man has never seen before. And to do that, we needed the most brilliant of minds.

Great creators have joined the project to demonstrate that talent and creativity are capable of transforming the world around us.

Nature is the basis, but the human mind is able to give life to new forms, textures and materials from it.

That is our main task: to create pieces with a soul of their own, evoking their origins while transmitting new sensations.

Spaces that inspire

The Unique collection transforms spaces in which it is used, endowing them with elegance and unique style. Sober, commanding homes and spaces that take on another dimension when these materials become the protagonists.

30 mm - 1 1/4"

glacé finish

Perfect matt, smooth and glowing, a soft sensation to the touch, the absence of reflections and fast, easy cleaning. Beautiful and practical at the same time, with one single finish.

Polished

A finish that intensifies colours, giving them more life, and enabling you to give a distinctive seal to your surroundings. A finish that reflects the personality of a true connoisseur.

Efficiency and respect

QUALITY

U.S. GREEN BUILDING COUNCIL

This recognition from the USGBC demonstrates our commitment to a prosperous and sustainable future - more aware of our use of energy and more collaborative with the construction of "green buildings".

NSF CERTIFICATION

In addition to beauty and exclusive distinction, at COMPAC we also want to create responsible and safe products. This is why all our products are manufactured in materials that are totally safe when food products are brought into contact with them. This is certified by the leading US organisation.

GREENGUARD MARK

We create products that comply with even the most demanding quality standards for indoor air, and this is what this prestigious Institution guarantees by granting us these seals. Including the Greenguard Children & Schools Certified, one of the strictest standards in the industry, for obvious reasons.

BIO CERTIFICATE

Distinction, responsibility and respect can, and must, go hand in hand. That's why the Unique collection is made using vegetable-origin raw materials such as hi-tech BIOresins, from renewable sources. This is certified by the prestigious BIO certification.

We are the first to demand maximum quality and respect for the environment throughout our entire manufacturing process. It's part of our DNA.

Proven quality passing rigorous tests
